TechTrack Vendor Portal

VENDOR GUIDE

Version 28 · November 4, 2026
For MCR Hotels technology vendors

1 What's new
2 Quick start
3 Signing in
4 My Day and the Projects tab
5 Inside a project
6 Files
7 Invoices and payments
8 Dates, site visits and change orders
9 On site and closeout
10 Quote requests
11 Calendar
12 The other tabs
13 Phone app and guided tour
14 FAQs
15 Rules and help

1 What's new

- **Guided tour.** The first time you sign in, the portal offers a 1 minute tour that points at each part of the screen. Replay it any time with **Take the tour** on the Help tab.
- **Closeout checklist.** Every project shows the five closeout items and what is still missing, with an Upload button on each one. **Send closeout to MCR** unlocks when all five are in.
- **Invoice status tracker.** Each invoice moves from Submitted to Approved to Paid, with the paid date when MCR has it.
- **Questions on quote requests.** Ask MCR a question on an open quote request. Every invited vendor sees the answer, never who asked.
- **Calendar.** Month and list views of your dates, with days a hotel is unavailable shaded, plus a calendar file you can add to Outlook or your phone.
- **Exports.** Export Excel and Export PDF on the Projects tab now download exactly the rows and columns on your screen.
- **Status notes.** Post a status note to MCR from inside a project.
- **Loading screens.** The MCR logo now shows whenever the portal is working, so you know it has not stalled.

2 Quick start

1. Open the portal link MCR sent you and bookmark it. The link never changes. On a phone, add the Vendor Portal app to your home screen (see "Phone app").
2. First sign-in: click **First time or reset**, enter your email and the one-time setup code from MCR, and create your own password.
3. Take the guided tour when the portal offers it. It takes about a minute.
4. Go to the **Projects** tab. Your projects are grouped by hotel. Click a project name to open it.
5. Work the project from its buttons: **Send files to MCR**, **Log an invoice**, **Set project dates**, **Request a date or site visit**, **Change order**, **Check in on site** and **Send device info**.
6. Watch for the **Waiting On: You** pill. It means MCR needs something from you, and the note says what.

> **Tip** Start each day on the My Day tab. It lists what needs you today, with links to Issues and the Calendar.

3 Signing in

First sign-in

1. Open the portal link and click **First time or reset**.
2. Enter your email, the setup code from MCR's invite, and a new password twice.
3. Click **Set password and sign in**.

Rule	Detail
Password	At least 10 characters, with at least one letter and one number. Your own; MCR never sees it.

Rule	Detail
Setup code	Works once and expires after 14 days. Ask MCR for a new one if it stops working.
Wrong password	Five wrong tries lock the account for 30 minutes.
Session	You stay signed in for up to 6 hours, then sign in again.
Forgot password	Click **Forgot password**, enter your email and click **Request a reset**. MCR sends a new setup code; then use First time or reset again.

Change password and **Sign out** are at the top right of every page (inside **Menu** on a phone). Sign out on shared computers. Each person at your company gets their own sign-in, tied to their email.

4 My Day and the Projects tab

My Day

Your start page for the day: what is waiting on you, what is coming up and any open issues at your hotels. Use **Open Issues** and **Open Calendar** to jump straight there, and **Refresh** to reload.

Projects

Your projects, grouped by hotel, with an overview and totals at the top: active projects, hotels, projects due in the next 30 days, invoices in approval or approved, and paid.

Control	What it does
Filters	Search, Show (active or completed), Fund, Brand, Hotel, Category, Stage, Payment, PM Assigned, Assigned to me and a date range. Hold Ctrl (Cmd on a Mac) to pick more than one value. **Clear filters** resets them.
Expand all / Collapse all	Open or close every hotel group at once.
View	**Group by hotel** or **One table**.
Assign PM	Set your company's project manager on the active projects showing. Tick boxes let you leave some out.
Export Excel / Export PDF	Download exactly the rows and columns on your screen, with your filters applied.

PM Assigned

Each project can carry your PM's name and email. Click **+ Assign** on a row, or **Assign PM** / **Change PM** inside a project. **Clear PM** removes it. The PM email is what makes the **Assigned to me** filter work for that person.

5 Inside a project

Click a project name to open it. You will see the dates, Stage and Payment as MCR has them today, the Waiting On pill, Project Updates from MCR (newest first), your buttons and the closeout checklist.

Button	Use it to
Assign PM / Change PM	Set who at your company runs this project.
Send files to MCR	Send quotes, invoices, photos, punch lists, GM signoff, as-builts, test results and other documents.
Log an invoice	Record an invoice number, date and amount with the PDF.
Set project dates	Enter your Start Date and End Date (shows on open projects that use it).
Request a date or site visit	Ask for a schedule change or a site visit (active projects).
Change order	Submit added or changed scope with the amount (active projects).
Check in on site / Check out	Tell MCR when your team arrives and leaves.
Send device info	Give MCR the make, model, serials and warranty of what you installed.
Post note	Send MCR a short status note on the project.

Waiting On pills

Pill	Meaning
Waiting On: You	MCR needs something from you. Hover or tap it to read the note. It also turns on by itself when the project is past your planned end date or an invoice is needed.
Waiting On: MCR	The next step is MCR's, for example a pending schedule request or change order.
Waiting On: Hotel or Brand	The project is waiting on the hotel or the brand.

Payment wording

Waiting on your invoice, Invoice in approval, Approved for payment, Paid, Deposit in process, and Past due, being worked.

6 Files

Send files to MCR

1. Open the project (or an open quote request) and click **Send files to MCR**.
2. Pick **What is it**: Quote, Invoice, Photo, Punch List, GM Signoff, As-Built, Test Results, Closeout Document or Other.
3. Choose one or more files, or drag them onto the box, and click **Upload**.
4. The Files tab shows each one as **Received**, then **Filed with MCR** once MCR files it in the hotel's project folder.

Limit	Detail
Size	Up to 25 MB per file.
File types	pdf, jpg, jpeg, png, gif, heic, heif, webp, tif, tiff, doc, docx, xls, xlsx, ppt, pptx, txt, csv, msg, eml, dwg, vsd, vsdx

Files MCR sends you

When MCR sends you files on a project or quote request, the Files tab shows a **New** badge. Those files are marked **From MCR** with status **New from MCR**, then **Downloaded** once you open them. Only your company sees them. Click the file name to download.

Shared Files (partners)

If you work alongside partner vendors, the Shared Files tab has **Share files with partners**. Only the partners you tick can see those files. Your other uploads, invoices and costs stay private.

> **Rule** Do not put prices, quotes or invoices in a partner share or a TV job share. Send those to MCR on your own project.

7 Invoices and payments

Log an invoice

1. Open the project and click **Log an invoice** (or use the Invoices tab).
2. Enter the invoice number, date and amount. Tick **Final invoice** if it is the last one.
3. Attach the PDF and click **Log invoice**. Each invoice number can be logged once.

Invoice status tracker

The Invoices tab shows each invoice on a three step tracker:

Submitted ▶ **Approved** ▶ **Paid**

Filter by Search, Hotel, Status, From and To, and see the count and amount at each step. The paid date shows when MCR has it. The tracker follows the payment status MCR has on the project, so invoices on the same project move together. The Payments tab shows the amount, payment status and paid date for each project, with totals.

> **Good to know** T53 fund hotels pay once every 45 days from the date the invoice is received, so the exact payment day is not known ahead of time.

8 Dates, site visits and change orders

Set project dates

1. Open the project and click **Set project dates**.
2. Enter your Start Date and End Date. A date that is still blank saves right away.
3. Changing a date that is already set needs a reason and goes to MCR for approval. The current date stays until MCR approves.

The dialog warns you if the hotel is unavailable that day or another vendor is scheduled at the hotel (no names are shown). Projects without Set project dates use Request a date instead.

Request a date or site visit

1. Click **Request a date or site visit** and pick Schedule date change or Site visit.
2. Enter the date, time window, techs on site and the reason, then send it.
3. If the hotel is unavailable that day you are warned right away. You can still send it, and MCR decides.
4. Nothing changes until MCR approves. The answer shows as a Project Update and on the Schedule tab.

Change orders

1. Click **Change order**, describe the added or changed scope and enter the amount. Use a minus sign for a credit.
2. Attach the signed change order PDF if you have one, then send it.
3. While it is pending the project shows Waiting On: MCR. Once approved, the project amount changes by that amount.

On the Change Orders tab each row has **PDF** (a copy of the change order record) and **Signed file** (when one was attached). **Export PDF** combines the change orders that match your filters.

9 On site and closeout

Check in and check out

1. When you arrive, click **Check in on site** and enter the names of everyone on site. Notes and an arrival photo are optional.
2. When you leave, click **Check out** and add a short note on what got done.
3. You can be checked in at one hotel at a time. MCR is alerted when you check in.

Send device and warranty info

When the install is done, click **Send device info**. For each device type enter the make and model, quantity, serial numbers, install date, warranty end date and the support phone and email. **Add another device** adds lines. The Devices tab shows **Recorded by MCR** once MCR adds them to the hotel's records.

Closeout checklist

Every project has five required closeout items. The checklist card in the project shows each one as received or missing.

#	Item	Send it as
1	Completion photos	Photo
2	Punch list	Punch List
3	GM signoff	GM Signoff
4	As-built drawings	As-Built
5	Test results	Test Results

1. Click **Upload** next to any missing item.

2. When all five are in, click **Send closeout to MCR**. Until then the button stays off and lists what is missing.
3. Use **Post note** and the checklist tick boxes to keep MCR up to date. Only your company and MCR see your notes.

10 Quote requests

1. The Quote Requests tab shows open requests from MCR with the scope and due date.
2. While a request is open, its hotel's site packet (floor plans, access and closet details) opens on the Site Info tab.
3. Use **Send files to MCR** on the request for anything you want MCR to have before you quote.
4. Click **Submit a quote**, enter the amount per hotel, attach the PDF and click **Send quote to MCR**.

Questions and answers

1. Type your question under Questions and answers on the request and click **Ask MCR**.
2. It shows as **Waiting for MCR** until it is answered.
3. MCR publishes the question and answer to every invited vendor without your name, and emails each of them.
4. Questions close when the request closes or passes its due date.

Your quotes below the requests lists everything you sent, with Export Excel.

11 Calendar

- Shows your start, planned end and completion dates, schedule requests, check-ins, quote due dates and TV installs.
- Shaded days mean the hotel is unavailable. Do not schedule work on those days.
- **Month** and **List** views. In Month, use <, > and **Today**. Phones open on List, from today forward.
- Filter by Hotel, Status, From and To. **Clear filters** resets them.
- Click any item to open its project.
- **Download calendar (.ics)** adds the items showing to Outlook, Google Calendar or your phone.

12 The other tabs

Some tabs only show when they apply to your company. Every list has search and filters, and most have Export Excel.

Tab	What it shows	What you can do
Map	Your hotels on a map, sized by number of projects	Click a dot, then Show in Projects
Schedule	Your date and site visit requests and MCR's answers	Request a date or site visit
Files	Everything you sent and what MCR sent you	Send files to MCR, download
Change Orders	Your change orders, amounts and MCR's decision	Submit, download PDF or Signed file
On Site	Your check-ins and check-outs	Check in, check out

Tab	What it shows	What you can do
Site Info	Parking, access, on-site contact, network closet and files for your hotels	Download floor plans and files
Payments	Amount, payment status and paid date per project, with totals	Filter and export
Devices	Device and warranty info you sent	Send device info
TV Installs	TV jobs and install dates, for vendors working alongside the TV installer	Share and download job files
Issues	Open issues at your hotels on the systems you support, such as a Wi-Fi or TV problem the hotel reported	Filter, refresh, export
Help	How-to sections and the guided tour	Take the tour

Banners at the top of the page are announcements from MCR. Click the x to hide one for this session.

13 Phone app and guided tour

Phone app

1. Sign in on your computer and click **Get the Vendor Portal phone app** in the page footer, or open the app link MCR sent you on your phone.
2. iPhone: tap Share, then **Add to Home Screen**. Android: tap **Install**.
3. The portal opens full screen with the MCR icon. Sign in the same way.

On a phone the tabs are a swipe row, filters start folded and tables show as cards with a **Sort by** picker. **Change password** and **Sign out** sit under **Menu**.

Guided tour

On your first sign-in the portal offers a short tour. Each step points at a part of the screen with **Back**, **Next** and **Skip tour**. Replay it any time from **Take the tour** on the Help tab.

14 FAQs

I did not get a setup code, or it stopped working.

Codes work once and expire after 14 days. Email Chris Perry at MCR for a new one, then use First time or reset.

My account is locked.

Five wrong passwords lock it for 30 minutes. Wait, then sign in, or use Forgot password.

Can two people at my company share one sign-in?

No. Each person gets their own sign-in tied to their email. Ask MCR to invite your coworkers.

I do not see a project I am working on.

Check the filters (Clear filters) and Show (active or completed). If it is still missing, tell MCR the hotel and project name.

Why does a project say Waiting On: You?

MCR needs something from you. Hover or tap the pill to read the note. It also turns on when a project passes your planned end date or an invoice is needed.

I changed a date but the old date still shows.

Changes to a date that is already set go to MCR for approval. The old date stays until MCR approves, and the answer shows as a Project Update.

Why is Send closeout to MCR greyed out?

All five closeout items must be in: photos, punch list, GM signoff, as-built drawings and test results. The card lists what is missing.

My invoice still says Submitted.

It moves to Approved and Paid as MCR processes it. Invoices on the same project move together. T53 fund hotels pay every 45 days from the date the invoice is received.

My file will not upload.

Files must be 25 MB or less and one of the listed file types. Try zipping large photo sets into smaller batches, or a PDF instead of a scan image.

Can other vendors see my quotes, files or questions?

No. Other vendors never see your quotes, files, invoices, notes or name. A question you ask on a quote request is shared with the other invited vendors without your name, so do not put pricing in it.

How do I get floor plans before I quote?

While a quote request is open, that hotel's site packet opens on the Site Info tab. MCR can also send files to you on the request.

Can I schedule work on a shaded calendar day?

Shaded days mean the hotel is unavailable. You can still send a request, but MCR decides, so pick another day when you can.

Will the portal email me?

MCR emails you about quote requests, answers to questions, decisions on your requests and change orders, and notes. Those emails come from MCR, not the portal.

How do I add my dates to Outlook?

On the Calendar tab, set your filters and click Download calendar (.ics), then open the file.

The page is showing the MCR logo spinning.

The portal is loading or saving. Large lists can take a few seconds. If it runs past a minute, refresh the page.

Who do I contact for help?

Chris Perry, MCR Technology, cperry@mcrinvestors.com.

15 Rules and help

- MCR approves every date change, site visit, change order and quote before anything changes in MCR's records.
- Check the Site Info tab before you go, and do not schedule work on days the Calendar shows the hotel as unavailable.
- You only see your own company's projects, plus partner jobs MCR has set you up on. Keep your password to yourself.
- Do not put prices, quotes or invoices in partner or TV job shares. Send them to MCR on your own project.
- Help: Chris Perry, MCR Technology, cperry@mcrinvestors.com.
